OBJECTIVE

To join an organization that encourages initiative and collaboration, where I can make a meaningful contribution to the company's vision, while fostering my personal growth and helping drive the company's development.

EDUCATION

Bachelor of Computer Science : Jaipur Engineering College and Research Centre Expected 2024
Percentage : 91.9

Intermediate of Science : Shiv Prasad Singheshwar Mahavidyalaya - Desari, Vaishali 2017 - 2019
Percentage : 79.4

Matriculation of Science : High School Maudah 2017
Percentage : 62.4

SKILLS

Programming Languages	C, C++, Data Structure and Algorithm
Web Development	HTML, CSS, JavaScript, ReactJS, NodeJS
Version Control	Git, GitHub

INTERNSHIP AND CERTIFICATION

ReactJS Developer : Celebal Technologies May 2023 - Aug 2023
During this ReactJS internship, I improved my user interface design skills and learned various features of ReactJS while working on projects like E-Shiksha, E-Cart, and Weather App.

Full Stack Developer : Wisflux Tech Labs Jul 2022 - Aug 2022
During this internship, I learned the fundamentals of web development, Git, GitHub, while applying my learning to build the projects like GitHub User Search, Zippy Clone, and Technical Documentation Page.

PROJECTS

Doc-Xpert : MongoDB, Express, ReactJS, NodeJs, HTML, CSS
Developed a user-friendly web app for doctor-patient appointments, including diagnosis assistance and information about government healthcare schemes. [\[Link\]](#)

E-Shiksha : ReactJS, HTML, CSS
Created an educational platform with a user-friendly interface, centralizing topic-wise youtube videos for interactive and efficient learning experiences. [\[Link\]](#)

GitHub User Search : ReactJS, GitHub API, HTML, CSS
Designed a user-friendly web tool for finding GitHub profiles by username, offering a comprehensive view of a user's GitHub activity. [\[Link\]](#)
